## EXPERIENCE

---

### Crowdhaus – Property Discovery

London, UK

*iOS Engineer*

May 2021 - Present

- Assisted in the process of scaling the mobile application to 14,000+ downloads, 300+ five-star reviews on AppStore, and 5,000+ property enquiries while keeping the VIPER architecture
- Worked directly with the CTO, CPO, and Lead Designer to improve and add new features to the existing iOS app
- Created a full-stack (MEVN) web application from scratch, accommodating users with no mobile app installed (15,000+ visits per month)

*Junior iOS Developer*

January 2021 – May 2021

- Worked on and helped design some of the key features of an app such as authentication, filters, profile, groups and AppClips
- Worked closely with the CTO, CPO, and senior iOS Developer to improve and expand Crowdhaus iOS app

*Marketing Intern*

September 2021 – December 2021

- Provided suggestions on improving AppStore Optimization, Search Engine Optimization, and Social Media Accounts
- Produced visual and textual content for blog and newsletter with an audience of 1000+
- Worked closely with the CEO, Marketing Manager, and Growth Marketer to maintain user retention and increase metrics such as active users' numbers and app downloads

### Card – Share Social Profiles

London, UK

*Founder & Developer*

July 2020 – November 2020

- Created an iOS application and a website from scratch, featured on the main pages of Product Hunt, BetaList, StartupBase, Founder Facts and various newsletters
- Reached 1,000+ downloads and 400+ active users within 5 months of managing the project. The project is sold!
